

# Project Update

## El Camino Avenue/Verna Way STORM DRAIN IMPROVEMENT PROJECT

JANUARY 2021

ISSUE 1

### About this Newsletter

This newsletter provides current information about the El Camino Avenue/Verna Way Storm Drain Improvement Project. For your reference, a project map is printed on the back of this newsletter. If you have questions, please contact the project staff listed below.

### Background

The El Camino Avenue/Verna Way Storm Drain Improvement Project area is located on Verna Way, Roslyn Way, and Ione Street near El Camino Avenue, between Watt Avenue and Eastern Avenue, in the Arden-Arcade area. The project area consists of approximately 45 acres of medium density residential development. The project was initiated due to multiple street flooding reports within the project area over several years. In 2015, the Sacramento County Department of Transportation (DOT) installed drainage pipe stubs to Verna Way, Roslyn Way, and Ione Street. This Project will extend the drainage pipe stubs, finishing the storm drain improvements.

### Project Description

Improvements will upgrade the existing system, alleviating street flooding in the area, and bring the system up to current drainage standards. This project will install a new drainage pipeline in Verna Way, Roslyn Way and Ione Street, connecting the new lines to the new drainage pipeline installed by DOT in El Camino Avenue. See the project map on the back of the newsletter for more detailed information.

### Project Updates

The project design is being finalized and the project is scheduled for construction in summer 2021. The project went through an environmental review and was issued an exemption. The project will be presented to the Sacramento County Board of

Supervisors for approval & advertisement in February 2021.

A second newsletter will be mailed out to provide an update after public bidding. The newsletter will provide additional contact information for the construction phase of the project.

### Project Schedule

- Final Plans & Specifications – January 2021
- Board of Supervisors Approval – February 2021
- Project Advertisement–February 2021
- Bid Opening – March 2021
- Board of Supervisors Award – May 2021
- Construction Begins – June 2021
- Construction Ends – August 2021

All dates are tentative and subject to change

In addition, project information can be viewed online at [www.saccodwr.org](http://www.saccodwr.org): (search: Verna Project).
