

PROJECT *Update*

Issue No. 2 - August 2023

Phase 3: Arden Service Area Pipe and Meter Installation Project (Project)

Purpose of this Newsletter

As of early August, Teichert has completed potholing work in all zones of the Project (see map provided). Teichert has also completed water main installation in Zone A, Zone B and Zone F and is approximately 40% complete for the Project. In Zone A, Teichert has successfully tested, flushed, disinfected and completed the tie-ins for the water main and is currently working on water service crossovers. In Zone B, Teichert has installed all the water services and will proceed to the testing, flushing and disinfection process in the coming weeks. This sequence of work is continuing to progress through the remaining zones in the following order: Zone A → B → F → C → D → E.

Teichert Construction
Contractor Project Manager: Philip Crummett
Phone: (916) 997-4525

If work is expected on your property, Teichert will continue to place a door hanger notification a few days prior. **If you are notified of a water service crossover on your property, please plan for your water to be shut-off for at least four (4) hours.** Please follow directions for “No Parking” signs, closed sidewalks and stay clear of the work area for safety.

Please note that current road conditions are temporary and final street restoration will be the last major construction activity for this Project.

Project Summary

- Begin Construction – November 2022
- Work Completed: Potholed existing utilities, 40% of water main installation, 43% of water service installation, 39% of fire hydrant installation
- Work Remaining: Install outstanding water mains, fire hydrants, water services, test and tie-in new system, set meters, remove and/or replace fire hydrants, abandon old water mains, and restore street
- End Construction – Tentative October 2024
